We face many challenging issues such as growth with SH 130, water, county/city relations and tight budgets. The first step to addressing these issues is open, fair, smart and accessible County government. I will propose conducting meetings during the evening and televised using the City of Lockhart's video equipment.

I believe citizens have a right to hear from their elected officials, so when elected, I will conduct "County Hall" meetings where you can meet me in person and ask questions about the county's business and establish a bi-monthly e-newsletter that will keep you regularly informed about important work the county is undertaking for you.

If you elect me your county commissioner, we will work together to ensure you have all the information you need to understand how the county is working for you. I will bring a fresh voice to local government, fiscal responsibility to the courthouse, professional expertise, and dedication to the position.

Caldwell County in the twenty-first century must develop new relationships and new ways of doing things to ensure an economically prosperous, socially just, and environmentally healthy future. Tapping into the resourcefulness and creativity of rural people will be essential in addressing this challenge.

Please cast your vote for me, Frank Estrada, this primary election, March 2nd, 2010
